Exercise: Hacking ciphers with Python

Note: You will need **Python 3** to do these exercises easily. Otherwise, you will need to fix the codes.

From the book:

"*Hacking Secret Ciphers with Python*"

http://inventwithpython.com/

Enter the web site of the book: http://inventwithpython.com/hacking/chapters/

Try to run and understand the following:

1. Chapter 5 - The Reverse Cipher

2. Chapter 6 - The Caesar Cipher (But first read about the Caesar Cipher)

3. Chapter 7 - Hacking the Caesar Cipher with the Brute Force Technique
